SUMMARY

Fresher backend developer with hands-on experience in Python API development and Microsoft Azure. Skilled in building scalable REST APIs, integrating cloud services, and contributing to real-time GenAI projects. Strong grasp of modern development tools and agile collaboration.

TECHNICAL SKILLS

Languages: Python, JavaScript

Frameworks: FastAPI, Flask, Node.js, Django, Express.js

CMS/Tools: Strapi, Streamlit

Cloud: Azure Functions

Databases: Azure SQL, postgres, chromadb

DevOps: Docker, Git, Postman,

Monitoring: Azure Monitor

OS: Ubuntu/Linux

PROJECTS

- **Seekrs.ai** – GenAI search bar (Gemini + FastAPI) hosted on Azure.
- **Scoop Q&A Game** – Real-time multiplayer trivia app using WebSockets [App Link].
- **Thomascook CMS** – Content system in Strapi, reduced update time by 40
- **Doc Q&A** – Ollama + Mistral-powered document assistant.
- **Reusable API Templates** – Built dynamic backend modules for freelance clients.

EXPERIENCE

Backend Developer Intern   TunicaTech (Remote)

Dec 2023 – Jun 2024

- Created REST APIs with Python (FastAPI/Flask) and Node.js for 10K+ daily users.
- Deployed cloud workloads using Azure App Services and Key Vault for secrets.
- Integrated Azure Logic Apps and Functions to automate workflows.
- Added JWT auth, rate limiting, and observability via Azure Monitor.

EDUCATION

B.Tech in Electronics and Communication Engineering

JNGEC, Sundernagar

CGPA: 7.69   2020–2024

CERTIFICATIONS

- Cisco – Introduction to Data Science (2024)
- Simplilearn – Kubernetes (Code: 8435135)
- Workera – Data Analyst Core I

EXTRAS

- Strong score in TCS NQT (Cognitive + Technical).
- Hobbies: Shooting, Fitness,
